

**graph query** — List available schemes and styles[Description](#)  
[Also see](#)[Quick start](#)[Menu](#)[Syntax](#)[Remarks and examples](#)

## Description

`graph query`, `schemes` lists the available schemes.

`graph query` without options lists the available styles.

`graph query stylename` lists the styles available within *stylename*.

## Quick start

List styles used in graph options

```
graph query
```

List available color styles

```
graph query colorstyle
```

List available graph schemes

```
graph query, scheme
```

## Menu

Graphics > Manage graphs > Query styles and schemes

## Syntax

```
graph query, schemes
```

```
graph query
```

```
graph query stylename
```

## Remarks and examples

[stata.com](http://stata.com)

This manual may not be—probably is not—complete. Schemes and styles can be added by StataCorp via updates (see [R] [update](#)), by other users and traded over the Internet (see [R] [net](#) and [R] [ssc](#)), and by you.

Schemes define how graphs look (see [G-4] [Schemes intro](#)), and styles define the features that are available to you (see [G-4] [symbolstyle](#) or [G-4] [linestyle](#)).

To find out which schemes are installed on your computer, type

```
. graph query, schemes
```

See [G-4] [Schemes intro](#) for information on schemes and how to use them.

To find out which styles are installed on your computer, type

```
. graph query
```

Many styles will be listed. How you use those styles is described in this manual. For instance, one of the styles that will be listed is *symbolstyle*. See [G-4] [symbolstyle](#) for more information on symbol styles. To find out which symbol styles are available to you, type

```
. graph query symbolstyle
```

All styles end in “*style*”, and you may omit typing that part:

```
. graph query symbol
```
