

estimates title — Set title for estimation results[Description](#)[Quick start](#)[Menu](#)[Syntax](#)[Remarks and examples](#)[Also see](#)

Description

`estimates title:` (note the colon) sets or clears the title for the current estimation results. The title is used by [estimates table](#), [estimates stats](#), and [estimates dir](#).

`estimates title` without the colon displays the current title.

Quick start

Set title for the current estimation results

```
estimates title: Base model
```

Display the title of the current estimation results

```
estimates title
```

Menu

Statistics > Postestimation

Syntax

```
estimates title: [text]
```

```
estimates title
```

Remarks and examples

After setting the title, if estimates have been stored, do not forget to store them again:

```
. use https://www.stata-press.com/data/r18/auto
(1978 automobile data)
. regress mpg gear turn
(output omitted)
. estimates store reg
```

Now let's add a title:

```
. estimates title: "My regression"
. estimates store reg
```
